MONTANA INDIAN BUSINESS ALLIANCE

Montana Indian Business Alliance

2009 INDIAN BUSINESS DIRECTORY

About the Montana Indian Business Alliance

The Montana Indian Business Alliance (MIBA) was established in May 2006 to continue the momentum and build on the energy created by the first Montana Indian Business Conference, held in February 2006. MIBA's mission is to promote private Indian business development by maximizing and developing resources that encourage and support Montana Indian entrepreneurs and business owners. This mission is accomplished by the collective skills, knowledge and resources of the more than 80 MIBA partners that collaborate to:

- be a proactive network and resource advocate for Indian business,
- be a catalyst for Indian entrepreneur growth and enhancement,
- promote successful Indian Country business environments, and
- foster accessibility to financial resources.

The effectiveness of MIBA's efforts have been recognized beyond Montana's borders; the MIBA model has been replicated in South Dakota, Wisconsin and Minnesota, with expressions of interest from Native groups in several other states. This is a testimony to the effectiveness of MIBA's strategic focus and the increasing recognition that strong private business sectors are indispensable components for healthy Indian Country economies. Through MIBA's quarterly training meetings, team initiatives, conferences, youth entrepreneur camps, networking resources and the many other collaborative efforts among its partners, MIBA will continue to influence sound policy development, and provide valuable assistance and resources to Indian business owners, Indian communities and tribal governments for years to come.

Criteria for Inclusion in this Directory

To be eligible for inclusion in this Directory, a business must be **more than 50 percent Native American-owned (self-reported)**, **must be a private business (not a tribal enterprise)**, and must be **located in Montana**.

How this Directory was Developed

This Directory, first developed in 2007 by the Montana Department of Commerce for MIBA, was inspired by the U.S. Census Bureau's 2002 Economic Census Report which identified 1,990 self-reported American Indian-owned businesses in Montana. The original Directory was compiled from several sources including Reference USA, a fee-based business database; Chamber of Commerce membership publications; Tribal Employment Rights Office lists; the Small Business Administration Minority Business database; the Montana Department of Transportation Disadvantaged Business Enterprise database; and information from website searches.

This 2009 update has utilized the same resources as well as word-of-mouth references. In addition, each business listed in the original Directory was contacted for additional information. Those no longer in business, not American Indian-owned, or expressed a preference to be de-listed were removed. This 2009 Directory has been categorized in a user-friendly manner by location, industry, alphabetically, and by federal and state certifications. In addition, e-mail and website information has been provided where applicable.

We sincerely hope this Directory will facilitate and encourage patronage of American Indian-owned businesses in Montana. To provide us with suggestions or comments, to submit a business for inclusion in the Directory, or to become a partner of MIBA, visit us at our website at **www.mibaonline.org**.

Sources: Montana Department of Labor and Industry, Research and Analysis Bureau; Reference USA; U.S. Small Business Administration, Central Contractors Registry, Dynamic Small Business Search; Montana Department of Transportation, Disadvantaged Business Enterprise; MIBA partners; personal interviews; Manta.com; Big Sky EDA; Native American Development Corporation; Department of Commerce; and all Montana Tribal Employment Rights Offices.

Compiled by: Mary Walks Over Ice with the assistance of Archambault & Company, a 35-year American Indian-owned business.
